INCREASE CAPABILITIES & BUSINESS REVENUE!

The MAX Pro Engraver was developed to be Vision's most versatile machine to date, allowing for engraving of flat, deep, round or odd-shaped items in one compact, easy-touse machine. Its automatic surface-sensing feature allows for flat and curved surface engraving on a wide range of other materials as well, such as plastic, brass, coated and non-coated metals, and more. The system includes Vision's Auto Laser Layout feature, which sends the engraving area and position directly to the software without measuring. Applications for this machine run the gamut from plaques, tags, badges, cylindrical metal objects to industrial parts marking.

THE MAX PRO OFFERS:

- Removable 8" x 12" aluminum t-slot table
- Interchangeable, self-centering vise with tilt
- Built-in cylindrical feature for engraving round items
- A self-contained, recircualting water pump
- V-Touch Pendant With Multi Functional Touch Screeen
