

NEW Series 5 Controller & V-Touch Pendant

V TOUCH TECHNOLOGY

Power At Your Finger Tips!

Experience higher precision, faster working speeds and advance navigation with Vision's new Series 5 Controller and V-Touch Pendant! Allowing you to access machine functions and features, the V-Touch Pendant has a very intuitive multi-functional touch screen display. Hold it in your hand or set it down on any flat surface for quick and easy access. The new Series 5 Controller and V-Touch Pendant is available on Vision's 16 Series engravers, 1624R CNC router / engraver and larger machines.
