**ENGRAVING AND ROUTING MACHINES MANUFACTURER,
VISION ENGRAVING & ROUTING SYSTEMS, ANNOUNCES
LIVE ONLINE PRODUCT DEMOS**

New InstaVision Program Offers Personalized Web Demos

(Phoenix, AZ) – Engraving and routing machines manufacturer, Vision Engraving & Routing Systems, is pleased to announce a new online program for customers called InstaVision, offering live, personalized engraving and routing machine demonstrations with Vision staff. The program, a first in the engraving and routing machines industry, allows Vision to combine video conferencing technology with live machine demonstrations, which are tailored to the specific machine and application of the customer's choice. Personalized demonstrations are available for the complete range of Vision equipment, with machine work table sizes ranging from 8" x 10" up to 4' x 8'.

“We are extremely excited to announce this new program,” said Joe Ivanenok, President of Vision Engraving & Routing Systems, a leading engraving and routing machines manufacturer. “This technology allows us to offer live machine demonstrations to customers anywhere in the world. It's a better, faster, and more convenient way for our customers to learn about the products we offer and find solutions for their needs.”

For more information about the new InstaVision live demonstration program, or for questions about engraving and routing machines, please contact the Vision sales office at (888) 637-1737 or visit online at www.visionengravers.com/InstaVision.

About Vision Engraving & Routing Systems: VISION ENGRAVING & ROUTING SYSTEMS manufactures a complete line of computerized engraving and routing machines. With over 28 years in business, Vision has established a reputation for the highest quality engraving products. Proudly made in the USA, Vision's product line offers a wide range of rotary systems that will suit most any marking application. The Vision product line includes a variety of machines for a range of budgets and applications for business, from small-format and specialty engravers to large-format, heavy-duty engravers and routers. Vision also manufactures an extensive line of engraving fixtures, clamps, and other work-holding devices that help engrave more effectively and efficiently.
