VISION ENGRAVING & ROUTING SYSTEMS ANNOUNCES
VISION PRO 8 SOFTWARE

Vision Engraving & Routing Systems (Phoenix, AZ) is pleased to announce the release of Vision PRO 8, the latest upgrade for the company's most graphically-advanced software package. Vision PRO software includes features developed specifically for engraving and routing and allows greater flexibility when working with logos and graphics. This extensive software package also has the ability to run virtually any type of router, engraver, laser engraver, color printer, or vinyl plotter on the market.

Among the many new features available with Vision PRO 8 are text search and replace tools; an international character picker and foreign language support for Braille text; improved vectorization tools; the ability to send proofs directly to customers by e-mail; and advanced fills and graphic capabilities. As with Vision PRO 7.5, users can import more than 65 file types, including files from CorelDRAW™ and numerous other popular software programs.

For more information, please contact the Vision sales office at (888) 637-1737 or visit online at www.visionengravers.com.

About Vision Engraving Systems: *VISION ENGRAVING SYSTEMS manufactures a complete line of computerized engraving and routing systems. With over 25 years in business, Vision has established a reputation for the highest quality engraving products. Proudly made in the USA, Vision's product line offers a wide range of rotary systems that will suit most any marking application. The Vision product line includes a variety of machines for a range of budgets and applications for business, from small-format and specialty engravers to large-format, heavy-duty engravers and routers. Vision also manufactures an extensive line of engraving fixtures, clamps, and other work-holding devices that help engrave more effectively and efficiently.*
